Professor Alshawi is a Professor of Management and IT in Construction and the Associate Dean for Research and Innovation (previously the Director of Build and Human Environment Research Institute at the University of Salford). He holds many international advisory and consultant posts in various countries such as Malaysia, Hong Kong, Denmark, Saudi Arabia, United Arab Emirates, Syria, Jordan, and a consultant to World Bank and UN-Habitat Projects. He is also the Editor in Chief of the international journal of "Construction Innovation: Information, Process, Management", and the author of over a hundred publications in fields such as Project Management, Supply Chain Management, CAD, Business Improvement, Process Re-engineering, IT-based Business Improvement and Competitiveness, Business Process modeling, etc. His recent book "Rethinking IT in Construction and Engineering: Organizational Readiness" provides a holistic view and unique approach to successfully embrace IT to improve productivity and business performance. Professor Alshawi is the founder of five innovative postgraduate courses, in IT and Construction Management, ranging from PG Diploma, MSc, Master of Research and PhD (without residence). He has managed a number of large research projects over his research career. His leading work in management of information in collaborative environments, integrated databases in construction and computer integration are internationally known.
